

I am writing to strongly support the continuance of the "Do Not Call" law in New Jersey. Even with the law in place, of late callers get through -- and it's almost always at dinner time! Just like pop-up ads on the Internet, this is unwanted and unsolicited. I consider it an invasion of my privacy. I walk hard all day at a job and do not need dinner and evening time interrupted for such solicitations.

Again, I strongly encourage that the law remain in place .... as well as a Federal "Do Not Call" law.

Thank you for considering my comments.
